

# ***Uncompromised Check Solutions*** ***only from Ennis***

Ennis announces our state of the art line of secure, software compatible standard and custom laser checks, forms and accessories.

In addition to providing the highest security products Ennis is committed to helping grow your check business! More information on our non-branded, user friendly marketing collateral, websites and printed pieces can be found on the back of this information piece.

## **3 Tiers of High Security Checks**

Ennis provides a comprehensive check line organized in three tiers that include varying levels of paper and printed security features.

### ***Tier 1: Uncompromised Checks***

An economical option that provides well above the minimum eight security features needed to qualify as a "high security check." This tier (formerly SCF Standard checks) includes nine color choices, a newly designed pantograph, thermochromic icon and chemical wash warning box.

### ***Tier 2: Uncompromised Plus Checks***

Our mid-level tier (formerly SCF Secure Image checks) has been upgraded with a stylish new pantograph design, four color options, thermochromic icon, invisible fluorescent logo and chemical wash warning box.

### ***Tier 3: Uncompromised Premier Checks***

The most robust tier in the offering includes Granite/Parchment/Linen, 3-D & Financial Secure and our top of the line check; Hologram Secure. Premier check options can include holograms, prismatic printing, thermochromic icons, invisible fluorescent logo and chemical wash warning box.

# Uncompromised Sales & Sample Kit

## Uncompromised Check Solutions Sales & Sample Kits Include

### Product Samples

Actual printed checks organized by varying levels of paper and printed security features. The check samples call attention to the many security features included in each check tier and show most pantograph and color options.

### Secure Check Catalog

The Secure Check Catalog provides detailed information regarding the security features, color options and available formats within each tier. Find out more about Smart Start Kits, a great tool to introduce your customer to the top secure check options for small businesses.

### Forms & Accessories Catalog

The Forms and Accessories Catalog illustrates the most popular laser and continuous software compatible forms available to your customers. Accessories such as envelopes, self inking stamps and labels are available to help your customer run their business.

## Additional Tools for Distributors

### Non-Branded Website

Launching November 2008, [www.uncompromisedchecks.com](http://www.uncompromisedchecks.com) will provide your customers a place to view and render our check products, download our non-branded catalogs and learn more about the security features available on Uncompromised Check Solutions products. Distributors are encouraged to link this website to their existing homepage.

### Non-Branded Product Stuffer

During the new product roll out every check order shipped from our facilities will include a non-branded product stuffer. For a better look at this informative stuffer download the file from our check website.

### Custom & Long Run Check Catalog

Ennis specializes in checks for every customer need and check requirement. The Custom & Long Run Check Catalog highlights our wide variety of custom check capabilities.

### Price Guide / Compatibility Index

Our kit includes a suggested retail price guide with 40% margins built in. The Compatibility Index makes choosing the right product for the customers' accounting software a breeze.

### Email Attachments

Let customers know about your high security check line with colorful email signature attachments and pdf sell sheets. Attach either option to your email communications and watch your check sales grow.

### Invoice / Statement Stuffers

We've designed a colorful non-branded stuffer to help you promote secure checks in your outgoing mail. View this helpful marketing piece on the check website below.
