

Uncompromised Price Guide

This Price Guide contains prices for both your Secure Check catalog and Software Compatible Forms catalog.

To order laser checks, look for the security features you need, the product that provides those features, Premier, Plus or Uncompromised and check position – standard one on a page, 3-On-A-Page, 14” or Wallet. Not all check products are available in every position.

To order laser forms, look for the type of form you need and number of parts. All laser forms; invoices, statements, purchase orders and general purpose forms are the same price.

Prices for continuous forms and checks are listed by size and parts available. Create a customized look by adding up to two ink colors for as little as \$42.00 (additional charges may apply).

Check your catalog for additional options available with your product and your Compatibility Index for the check or form you require for your software.
