

# LazerStock™ Checks

PrintXcel continues to be diligent in offering distributors the latest in document security technology. ALL LazerStock™ checks come equipped with built-in security features to protect from fraud:

- Void Pantograph (hidden word built into the check background): “VOID” appears when copied or scanned
- Microprinting on Backer: type is visible under magnification
- Check Warning Borders: Alerts financial institutions security features are present
- Padlock Icon: identifies and defines multiple security features present on check
- Fluorescent Fibers: Yellow fibers built into the paper, visible under black light
- Chemical Reactive Paper: Special check paper that produces a stain when chemical or bleach is applied in an attempt to alter the check
- Same Day Shipping if order received prior to 1 p.m. central time.
- Prismatic Blue/Green/Blue check background color offered in addition to PrintXcel’s standard colors of Blue, Green and Red
- Thermochromic Padlock Icon: Heat reactive ink fades when rubbed briskly
- Full Length Security Backer: Words “Original Document” disappear when copied or scanned

# IMPRINTED LAZERSTOCK™

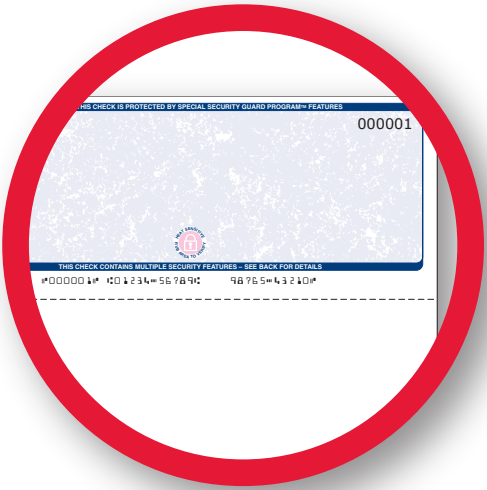

PrintXcel is happy to announce that we are now able to imprint LazerStock™ checks. All current LazerStock™ items can now be imprinted in black ink, including consecutive MICR, static MICR and black Arabic numbers.

## Here’s how it works:

- Choose a stock item from page 2
- Choose a quantity from the Pricing Guide
- Fill out a MICR spec sheet (available upon request)
- Acquire any artwork the customer would like printed
- Send it all to us!

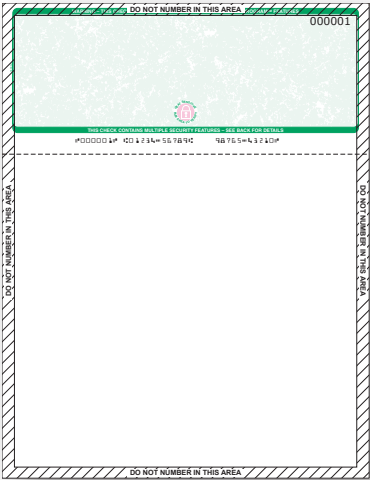

Full Length Security Backer

Imprinted LazerStock™

Thermochromic Padlock Icon

\*Imprinted LazerStock™ requires a 5/16” print margin around all 4 sides.
